EcoSolution™ Digital Full-color Plastic Bag

12" X 16"

EcoSolution Plastic Bags are the best choice for a sustainable, environmentally friendly plastic bag option. They have an additive that allows the plastic to effectively biodegrade* in most conditions, including landfills. These bags leave behind soil and biogases that can be harnessed as energy.

Before, Oxo-Biodegradable Plastics were consumers' first choice for an eco-friendly plastic bag, but they do not fully biodegrade. Instead, they leave behind harmful heavy metals and microplastics that absorb into the ground.

Available with digital, full-color printing and fast shipping, EcoSolution Plastic Bags are competitively priced with a price point below Oxo-Biodegradable. Contact us to receive a free comparison guide between EcoSolution and Oxo-Biodegradable to share with your customers.
